

A Kick in the Butt for Developers

Johannes Stern @yohstern

Developer @ Interhyp

"I can build your house for half the cost, but there's a 5% chance that it will collapse within 10 years."

"With some dirty hacks and without tests
I can build the feature in half the time, but..."

Deal!

Shocking lack of responsibility

3 Complaints

#1

"Our codebase is shitty"

What it really means

What can YOU do?
THE CODE IS YOURS!

#2

"It can never be done until this deadline!"

What it really means

What can YOU do?

Say NO!

Alternatives:

Prioritized backlog

Reduce scope

#3

"Those requirements don't make any sense!"

What it really means

What can YOU do?

Find your customers!

Don't ask for permission
